

**VILLAGE OF MARCELLUS, MI**  
**WATER SYSTEM IMPROVEMENTS**

---

**PART 1**

**ADVERTISEMENT FOR BID**

The Village of Marcellus will receive sealed bids for the construction of the Water System Improvements Project until 3pm, local time on the 3<sup>rd</sup> day of *August, 2022*, at the office of the Village 177 East Main Street at which time all bids will be publicly opened and read aloud.

The work for which bids are being requested consists of the following:

**Contract**

Division 3 includes refurbishment of the Water Treatment Plant. A new building addition will be added to the existing water treatment plant to accommodate for three (3) new high service pumps and vertical pressure filters. The final plant effluent piping will be tied into the distribution system following chlorine and orthophosphate chemical injection. The two (2) existing high service pumps and (3) vertical pressure filters will then be removed from the existing building to allow space for chemical containment for sodium hypochlorite and polyphosphate as well as a sample sink for taking plant samples. Well 4 influent piping will be modified to allow for an influent bypass of the aerator/detention tank to the new high service pumps. Influent piping from Well 3 inside the existing facility will be replaced once the Well 4 bypass is added. Another aeration/detention tank bypass will be added inside the building to allow for well 3 and 4 raw water to bypass the detention tank/aerator for future inspection of the tank. When using the bypass, oxidation will be achieved using sodium hypochlorite injection at the wells. Only treated water may be fed into the distribution system therefore the new treatment system in the building addition must be commissioned prior to the existing treatment system being taken off line. Suggested construction sequencing is provided on plan sheet DB001. and various appurtenances.

The Contract Documents including plans and specifications may be obtained at no charge by downloading from the Wightman website bidding page at <https://bids.gowightman.com/>. Neither the OWNER nor the ENGINEER will be responsible for partial sets of documents obtained from any other source. The Advertisement for Bids, Plan Holder's List, all Addenda, and the Bid Tabulation will also be posted on the Wightman website bidding page at [www.gowightman.com/bids](http://www.gowightman.com/bids).

The OWNER reserves the right to reject any or all bids and to waive any irregularities in bidding. The use of local contractors and labor is encouraged.

A certified check or bank draft drawn on a solvent bank in the State of Michigan payable without condition to the OWNER or a satisfactory bid bond executed by the bidder and a surety company, in an amount equal to 5 percent of the bid shall be submitted with each bid.

No bids may be withdrawn after the scheduled closing time for receipt of bids for at least ninety (90) days.

The successful bidder will be required to furnish a satisfactory Performance Bond and a Labor and Material Bond in the amount of 100 percent of the Contract price. Bond forms are included in the Contract Documents.

Funding is through the Michigan Drinking Water State Revolving fund and Compliance with Davis-Bacon Wages is required.

A non-mandatory Pre Bid meeting will be held at Village Hall, 177 East Main Street, at 2pm on July 12th, 2022.
